Re: New Wellness Program

For years, District 211 has provided employees with a wellness benefit program that allows them the ability to receive an annual wellness screening at an off-site location at their convenience. While the existing program was a useful resource for employees in the past, we found it important to bring greater accessibility to wellness benefits for all of our employees. In order to better serve our employees and provide greater wellness program accessibility, District 211's wellness committee developed a plan to expand services to our members. As a result, District 211 has contracted a new wellness benefit provider for all employees. On behalf of the Wellness Committee and District 211, it is our pleasure to introduce Interactive Health, Inc. as our new wellness partner.

Because we strive to provide extraordinary opportunities in all areas of our operation, our new wellness program, "Extraordinary Wellness," is designed to enhance opportunities while providing employees with accurate, timely information regarding their health and well-being. Over the next six weeks, Interactive Health will conduct voluntary, private health screenings on-site at all District 211 locations for interested employees. Please note that this benefit is free to all current employees. Spouses of current employees may also participate if they are enrolled in District 211 family health insurance.

Wellness Coordinators at each building will be hosting a kick-off meeting soon. Please stay tuned for meeting information and plan to attend so that you can meet representatives from Interactive Health and learn the details of the new program.
