CR SCORE	Counseling, College Readiness	High School	www.crscore.com

CRSCORE is on a mission to democratize and demystify college readiness for all. Starting as early as 9th grade, the CR SCORE APP tells students and parents what types of colleges they are on track to get into and gives them a personalized plan on how to improve their college readiness.			
For Counselors, CR SCORE provides a seamless platform, that starting in 9th grade, lets counselors engage their students by following all their progress, ensuring they don't miss deadlines and provides a best in class college fit tool to understand what colleges they are interested in and are tracking towards and recommend colleges that fit.

· Free professional learning for remote instruction: We've assembled a Remote Teaching Toolkit to make sure you are fully prepared to use Newsela to support core instruction remotely.			

· COVID-19 educational content: We'll continue publishing content that educators across subjects and grades can use to teach about COVID-19 in a way that's accurate, responsible and empowering to students. Our goal is to help them process the news, stay physically and mentally healthy, support the health of their families and communities and bring relevance to learning.

As a European Commission partner, we are partnering with all countries to support this non-profit programme.			

About the programme:			
1. Offers students, educators, and families unlimited access to your own Netflix of Education where they can find thousands of digital resources from the best providers in the world (ebooks, academic reference works, magazines, audiobooks, language learning content, etc) in multiple languages.			
2. Offers ready-to-use, interactive digital reading plans on the platform for all ages to encourage reading at home and to permit instructors to keep in contact with students. Each plan comes with questions and enriched texts already included to assist instructors in their work.			

3. Offers a support and training service for instructors and families.			
The process for accessing the platform will be using a very simple access code system so that the platform can be up and running for users within a few days.

We will be proactively curating topical response tools from our existing programs and sharing them in virtual format, such as:			
- Free lessons from our toolkits to download.			
- Tips for managing meaningful distance learning.			

- Regular Waybinar check-ins to counteract loneliness during this period of “social distancing.”			
We are first providing a download to a lesson from our signature Purpose Toolkit: Sharing Resources to do yourself, with your students, or your colleagues!

For Families -
Our curriculums
teach Chinese,
English, French,
German and
Spanish. Help
your child learn
languages at
home. Find out
more:
<https://studycat.com/apps/>

For Educators -
Fun English for
Schools is the
perfect tool for
you to teach
your students
remotely. Sign
up for free and
you will be given
a teacher's
version of our
Fun English for
Schools
classroom.

Once you have
installed the app
you will be able
to play games,
learn songs,
access
dialogues, do
phonics and
spelling lessons
and take quizzes.

Amicus is offering all friends access to our entire ebook library now through May 31. Promoting the wonder, diversity, and the challenges of the modern world, Amicus books for grades preK to 6 beg to be read—for learning, for pleasure, for raising the next generation of readers and thinkers.	Free ebooks	
Angel Island Immigration Station's curriculum guides, called "Immigrant Journeys," provide strategies and background material designed for teachers of Grades 3-12.	These free guides contain lessons, student worksheets, primary source documents from the National Archives, historical photographs, and list of resources to introduce students to the experience of immigrants on Angel Island.	
Students have step-by-step guidance to explore their passions, talents and life goals, interview people in the field in forums and by email and phone, and create a learning experience for others about their interest field. With a vision for life goals, kids care more about the tasks in front of them today.	Free 60-day subscription to Choose Your Path e-learning course (4th-12th grades)	
Online Education Learning App (Ages 2-8) - 2,000 Activities, Preschool Learning Path, Playzone	One-Month Free subscription with code ATHOME	
More than 2000 free resources and courses for teachers in Spanish overall	Courses and resources for classes	
Boost student engagement & fact fluency with our free multiplayer educational games, math games, language arts games, and more!	Always Free.	

Math practice system. Web, iOS, Android. Teacher dashboard and student practice app.	We are giving 7th and 8th grade teachers who work in school affected by the coronavirus free Unlimited subscriptions. Just email us and we will set you up. contact@ardoreducation.com	
	Interactive videos meant to stimulate creativity and a hands-on activity at home.	
Interactive Storytimes, crafts and activities to get your toddler moving!	Our teachers are providing free story time lessons, meaning they do warm up exercises, read kids a story that they interact with then do an activity with the lesson.	
Artusi is a suite of digital workbooks to help students learn the fundamental skills of music theory faster, better, and more accurately than before so they can spend more time pursuing the creative mission of music making and music study.	All Artusi online services are free to affected schools, universities, and other institutions until June 30. Email support@artusi.xyz to be added.	
Ascend Math is a K to 12 math instructional resource Ascend Math offers award winning math instruction that provides an individual study plan for each student. Ascend Math's study plans are unique to each student, prescriptive, adaptive, and automatically assigned. Teachers also have the ability to assign standards to an entire class or grade to meet pacing guidelines.	Free Service Offered: Now until the end of April for schools new to Ascend Math.	
Free tool for math teachers to assign classwork and homework. Compatible with Google Classroom and many common curricula like Illustrative Mathematics. Students receive immediate feedback and teachers receive reports with student- and class-level data to inform instruction.	The platform is entirely free	
Astrostem.org is an online education platform that includes astronomy lessons, astronomy applications, astronomy workshops, space games, current astronomy and space science news and allows users to produce their own content.	All resources free with creation of online account	

VFT's are topic based interactive and educationally rich experiences captured during real expeditions with scientists doing current research. Some are built with adaptive feedback and adaptive pathways. (Look for the designated icons). This adaptivity allows for non-linear experiences with varying pathways, as well as individual feedback, that is tailored to the users input and responses. These VFTs are being used in high school and college classrooms to supplement a wide variety of topics.	Always Free	
The world's largest collection of audiobooks.	Now, kids of all ages can stream hundreds of free audiobooks across 6 different languages. Totally free. No sign-ups. No personal information required. No strings attached.	
Auditory Sciences is partnering with academic institutions who are preparing for prolonged absences and/or campus closures due to COVID-19. They are creating for your school a free captioning, note-taking and translation website that you can use to facilitate off-campus communications with students and faculty.	A private and secure Streamer captioning, translation and note-taking website configured specifically for your school. Students and faculty can use the website to caption and/or translate all conversations and lectures and do this anytime and as often as desired.	
Free online coding courses for Australian School students aligned to the Australian Curriculum	Our courses always have been, and continue to be free for Australian Students in years 3-8 (DT Challenges) and 7-12 (Cyber Security Challenges)	
Get kids outside recording signs of spring!	Reading by an author	
Authorfy brings readers and writers closer together through interactive video masterclasses, fun downloadable activities, and exciting after school club resources. Whether you're a teacher, parent, student, librarian, aspiring author or reluctant writer, there's something on Authorfy for everyone!" It is from the UK, but globally available. Ages 5-7, 7-11, 11+.	Access to author's videos, extracts from their books and downloadable cross-curricular schemes of work.	

A free toolkit with visual supports and other evidence-based tools effective for working with individuals with autism. Downloadable templates ready-made and available.	All tools are free.	
Our free Avaya Spaces offer provides a cloud meeting and team collaboration solution that enables people and organizations to connect and collaborate remotely – and goes beyond integrating chat, voice, video, online meetings and content sharing. It gives users all the meeting and team collaboration features needed, including voice and video conferencing for up to 200 participants.	Free	
Text message platform and CRM	Free use of text message platform for the next 2 months.

Bedtime Math is a national nonprofit that ignites kids' curiosity and learning by unleashing the fun in math. It offers playful online math problems for parents to do with their kids every day, as well as lively hands-on games. Research has shown that both offerings reduce kids' math anxiety, increase their love of math, and lay the groundwork for greater math achievement.	In response to sudden demand for learning at home, we've taken our engaging and research-proven after-school math club activities and presenting them for families to use for free: http://bedtimemath.org/fun-math-at-home/ . Families can also download our free Bedtime Math app on iOS and Android, which delivers a fun new math problem every day for families to do together and is proven to boost kids' math skills.	
BeED is a Finnish certified pedagogically-focused platform designed to meet your school's curricular and teaching needs. Some of the BeED features include a mobile experiential learning app, multi-blocking Curriculum Builder and interactive mapping for an engaging and flexible learning experience. A mobile platform enables educators to move beyond the closed walls of schools to conduct lessons remotely, giving students the support they need, through continual learning. Through their own mobile devices, students and teachers can carry on with their lessons, grading and personalized interaction, all from the comfort and safety of their own homes.	In light of more schools being closed throughout the region, BeED would like to extend its' support and services to schools affected by Covid-19 with a complimentary free 6 months' subscription to the mobile learning platform. During this process, the BeED team will provide on-going support from the on-boarding training to the uploading of content materials and more.

Lots of free sewing patterns and tips to learn to sew!	Free sewing patterns to download	
You didn't learn how to ride a bike by reading textbooks and listening to lectures. With Figure, learning math is like learning how to ride a bike. It's math for the right side of your brain. With Figure, equations become alive. Students drag-and-drop their way to a solution to any equation, learning the rules of mathematics along the way. With an engaging and interactive interface, Figure reduces the barrier to entry into complex subjects and reduces math anxiety. It allows teachers to lead a collaborative approach to all concepts ranging from Pre-Algebra, Algebra 1, Algebra 2, Physics, and beyond. From the abacus, to the slide rule, to the pocket calculator...Figure is the next step in the evolution of mathematics tools for education. GO FIGURE!	Many of the core interactive math features of Figure Classroom can be accessed without a class code. Simply create an account at https://figuremath.com/classroom/ and click "Try Figure for Free" in the class code window. We are also offering Figure for free to select schools who participate in our pilot program. Contact info@figuremath.com for more info.

To access remote training and professional development at no charge, sign up by April 1, 2020.	

<p>inquirED has created Together When Apart- a free inquiry-based distance learning curriculum. Together When Apart includes weekly interdisciplinary inquiries that explore the question: How can we stay together when we're apart? With accessible, engaging daily activities that can be shared directly with students, and a structure to build toward the creation of weekly project- Together when Apart connects student learning to this moment in time.</p>	<p>Inquiry-Based Distance Learning Curriculum around the question "How can we be together when apart?"</p>	
<p>InScribe is a virtual community that helps colleges build an on-demand support system to connect students to the answers, resources, and individuals they need to succeed. Our Q&A communities create a space for your students to engage with the experts on campus – advisors, instructors, even alumni. Students can search for answers and post questions when they need help. Expert answers are tagged and stored, so everyone benefits from the conversations that came before. Ultimately, students find the help they need more quickly, and experts spend less answering the same questions over and over again.</p>	<p>To help institutions</p>	
<p>This community is freely available to all education professionals and is a space to ask questions, share ideas, and find solutions during this time of change and uncertainty. Please join us as we work to support each other during this time of uncertainty.</p>	<p>Support Community</p>

We understand that weeks away from school can be detrimental to the progress students have been making thus far in the year. MI Write offers teachers help during this time to keep their students on track through virtual classroom support with engaging lessons, writing assignments, and easy communication with students.	Engaging lessons, writing assignments, and easy communication with students.	
Mindful Poetry Moments is a free program that offers a chance to pause and reflect on poetry's ability to encounter ourselves, the world, and the mystery of each other. Participating schools, individuals and organizations will be offered recordings of poets — including Brad Aaron Modlin, Aimee Nezhukumatathil, Naomi Shihab Nye, Carrie Newcomer and Gregory Orr - — reading their work from two of The On Being Project's content offerings: the On Being with Krista Tippett radio show and podcast and/or Poetry Unbound podcast. The audio will be accompanied by mindful prompts and meaning-making questions like "Does this poem encourage gratitude? How?" and "What's a line in this poem that brings a strong visual image to your mind?"	Always free.	
A game-based learning platform that promotes creativity, collaboration, and problem-solving in an immersive digital environment.	Always free.	

Free access to movement and mindfulness for students. Evidence based program.	Amazon Alexa Skill, Live Free Facebook Stream Classes, and prerecorded videos.	
These lessons are great ways for kids in grades 3 -8 to be introduced to and practice 3D modeling, coding, and hand fabrication. All projects have opportunities to learn skills and customize the final product. The Edgerton Center at the Massachusetts Institute of Technology is a home for experiential learning for students of all ages. We support the MIT community, K-12 schools, and STEAM education organizations seeking to learn by doing and have fun along the way.	3D printing projects and Coding projects, involving math and other K-12 subjects	
Mobile Guardian is a powerful, mobile device management (MDM) solution purpose-built for districts and schools.	Mobile Guardian is providing remote Classroom Management Tools and premium Web-Filtering free to all schools subject to enforced closures. This enables teachers to monitor what students are doing in lessons on their Chromebooks in real-time from their Mobile Guardian dashboard. They can also view how students spent their time during class. Web-filtering allows schools to secure devices that are now going home, as well as facilitate an academic environment.	

<p>MobyMax offers the only complete and comprehensive K-8 curriculum for 27 subjects, including math, reading, phonics, language, vocabulary, spelling, writing, science, social studies, and state test prep. MobyMax's digital courseware solution can be used at any time, on any device with an internet connection, whether it's a desktop at school or a tablet at home.</p>	<p>MobyMax announced on March 6, 2020 that it will provide its award-winning educational software free to all schools and school districts forced to close to protect against COVID-19. MobyMax has also developed a Contingency Learning Plan strategy that will help all schools access online learning while schools are closed. Given that most schools do not have plans in place to keep students learning if the physical school has to close, Moby has taken a very bold move in offering our solution to schools and districts for free, understanding school closures could start to snowball. School administrators will need to reach out to MobyMax. Teachers won't be able to set up the access.</p>	
<p>a philanthropy dedicated to making a college degreeA philanthropy dedicated to making a college degree more affordable and accessible for everyone. Great for high school students looking to stay occupied and earn free college credit.</p>	<p>Modern States is a "free credit-for-college" website where you can sign up for an account and register for free online courses taught by college professors which will help you prepare for the CLEP exams and Advanced Placement (AP) exams. After completing the courses, answering all the practice questions and passing the practice exams, you can request vouchers for each CLEP exam you plan on taking (this pays for the \$89 test registration fee per exam which is purchased on the College Board website). You then sign up to take the test at a test center near you (you can locate one at the College Board website).</p>

<p>Read to Lead is a digital literacy learning game, where students are empowered to be the boss while reading their way through a virtual internship. It is a fun, engaging, and relevant way to blast through traditional reading barriers and promote workplace readiness and skill building. By playing our learning games, youth increase reading achievement, find motivation, and see, often for the first time, a real connection between learning, career aspirations, and their futures. Read to Lead is geared for students in 5th - 9th grades and provides a diverse representation of characters to showcase that ALL of our students can be the Boss! Additionally, Read to Lead provides community action projects, coaching, and implementation support for an enriching educational experience! Our staff is committed to turn-key (ready-to-use) implementation and support to build the capacity of educators.</p>	<p>All resources on our platform are FREE that includes community action projects, lesson plans, and unlimited educator and student accounts to access our games. Additionally free virtual support in the form of webinars, one on one coaching sessions, and online communities, and video tutorials are offered on a weekly basis and free to access.</p>	
<p>ReadAskChat is a highly curated, beautifully illustrated digital library that provides parents, caregivers, and teachers of children six months to four years with all the guidance they need to lay a strong foundation for reading and love of learning.</p>	<p>During this time of school disruption and uncertainty, we are making the full library free to families through April 2020. Use organization code 5RVLD4 when registering.</p>	
<p>A critical thinking activity that incorporates novels and famous books, argumentation, and key themes together. Lesson plan, suggest topics per book, and publishing students' work on the website are all free.</p>		
<p>This is one of my favorite supplemental reading programs! It helps children become stronger readers and boosts comprehension. I've used this with many struggling readers that I've tutored over the years and have had excellent results each time. It's great for any child 2-13 years old. This link gets you 30 free days to use the program (no credit card required)</p>	<p>30 day free trial no credit card required</p>	
<p>Reading Horizons - Resources for Reading</p>	<p>From now through the end of the school year, we would like to offer your school/district access to our software products free of charge. This includes apps that can be used from home for students.</p>

A free online science magazine aimed at kids ages 9-14	Everything	
Science News in High Schools is a program from the Society for Science & the Public that aims to boost science literacy for every U.S. high school student.	Science News in High Schools is a program from the Society for Science & the Public that aims to boost science literacy for every U.S. high school student – and gives teachers easy ways to bring today's science developments into their teaching at a time when distance learning and homeschooling have become the new normal.	

Science News is published by the Society for Science & the Public, a nonprofit 501(c)(3) organization dedicated to expanding scientific literacy, effective STEM education and scientific research through its award-winning publications and world-class science education competitions.	Science News for Students (formerly Science News for Kids) publishes award-winning journalism on research across the breadth of science, health and technology fields. It aims to bring these new developments to a younger audience. Published daily, Science News for Students posts both shorter news stories and longer features, all written with a vocabulary and sentence structure aimed at readers 9 to 14 years old. The breadth of technical subjects and tone attracts many advanced readers as well. Our stories highlight ongoing research in fields ranging from astronomy to zoology. (Science News for Students does not publish original scientific results.) Stories are reported by experienced science journalists, many with PhDs in the fields on which they write.	
Reading Assistant Plus helps K-12 student of all levels practice independent reading and develop vocabulary, fluency, and comprehension skills. It is an innovative online guided reading tool “reads” to the student, “listens” while they read a selection aloud, detects when they falter, and provides immediate intervention in the form of correct pronunciation.	Licenses for Reading Assistant Plus through June 30, 2020	
Assiggnments can be made to collect written input but also images, video and Audio.	It is free, works well on ipads, chromebooks and computers.	
	Two months for free	

Over 50% of secondary students struggle with research and aren't ready for college writing. We're changing that. Scrible Edu is an award-winning, Google and Microsoft partnered/integrated research and writing platform. It lets students curate, annotate, manage and collaborate on articles in the cloud. It supports writing with citation capture, bibliography and outline editors and Google Docs and Microsoft Word integration. Students use powerful tools to scaffold and organize their work. Teachers use novel analytics to support personalized learning for the vital research and writing skills students need for college success. See our demo and teacher testimonial video here: https://youtu.be/l_G0erLPJBs	Scrible Edu is always free. Due to COVID-19, we're now also offering free access to our paid teacher plan (Scrible Edu Pro Teacher Plan) until July, 1, 2020, for K12 teachers (and their students) whose school is closing or going virtual due to the coronavirus outbreak.	
Seesaw is the best platform for empowering students to demonstrate and share their learning. We've just updated our product for all users so that they can transition to remote learning easily using Home Learning Codes. Students use powerful tools in the Seesaw app to create, reflect and demonstrate learning. When students share their learning in their Seesaw portfolio, teachers and families gain valuable insights into what their students know and can better support their development throughout the school year.	Always free, with premium options for schools. We've developed free resources and professional development specific to remote learning needs.	
SelfCAD is a 3D CAD web application totally based in the cloud.	We're providing a free month of SelfCAD to students stuck at home due to the school closures. Code is homeschool	
On the front page there is a section called 'Free Teaching Resources', the topics are listed by subject and exam board. Each section then has ppt, exam questions, videos etc - really useful.	Sign Up for Free	
	2 weeks of Senor Wooly PRO to every single Spanish teacher who wants one. Any Spanish teacher can request the free 2 weeks, whether you're new to Wooly, an expired user, or even if you just want to tack 2 extra weeks onto your active subscription.	

Create online game lessons for any subject and age group. You can turn any lesson into an engaging game with Seppo gamification tool. Leverage the benefits of active learning and multimedia devices, and teach well also when you can't be in the same physical space with your students. Students play with their mobile phones or tablets, anywhere. You create and monitor the games with your laptop, where ever you are. With Seppo you'll be able to keep a close eye on your students' performance and provide them real time guidance.	Full version available, also access to our content library with 4000 games created by teachers.	
Free science simulations, scientist profiles, and other digital resources for middle school science and high school biology. No log in required.	Always Free

The entire curriculum is available for free. Activities, videos, resources and tips to help the social and emotional well being of students.

The mission of The Learning Network is to help people teach and learn with The New York Times. The Learning Network publishes about 1,000 teaching resources each school year, all based on using Times content — articles, essays, images, videos, graphics and podcasts — as teaching tools across subject areas. These resources include lessons of the day, writing prompts, picture prompts, news quizzes, student contests, and more. With features like the daily Student Opinion question, thousands of teenagers each week join a global conversation on topics from politics to pop culture.

All of our activities for students, including our daily writing prompts, daily lesson plans, weekly news quizzes, What's Going On in This Picture?, What's Going On in This Graph?, Film Club, and more are all free - and they've always been free!

On The OT Toolbox, there are many free resources designed to build skills in children through movement and play. Many related services will be halted for children over the next weeks (occupational therapy, physical therapy, speech therapy, etc.) Parents are seeking resources and strategies to help their children move and play in a way that helps them achieve their goals.

All of the resources are free. More are being added today.

Free step-by-step Design Guide created by an educator and the inventor of Bop-It, Perplexus and more as well as videos, articles, ToyWiki to help and inspire.

Always free

Not everyone has access to high-speed internet during this time of social distancing, and the simplest way to connect everyone may be to jump on an audio conference call. A solution that could be most economical for both faculty and students may be the use of the following: 1) a centralized module on Tradepal to connect all participants in the course, 2) a group chat, and 3) a free conference dial-in to deliver the lesson. During this time, Tradepal has opened the solution for free to any faculty who need a way to deliver remote instruction for all students no matter what device or if they have limited WiFi. It works on any device -- Smartphone, tablet, laptop or desktop, and there is no need to download anything to access the solution.

In response to the shift to online, Tradepal will provide free and immediate access to its REMOTE LEARNING PLATFORM to help faculty members and tutors support their students during spring semester.

Practice violin with videos from professionals and instant feedback on pitch and rhythm.

TOP provides North American educators of social studies and STEM subjects, as well as workforce decision makers, with free classroom materials, workshops, virtual exchanges, and study tours.
